SANDER

SINCE 2001

Our Brand **Vision**

From Turkey to the World, with **environmental,** ecelogical, and national values...

Since 2001, SANDER, the industry leader, has expanded its production and export volume.

It is a global brand that is continually expanding.

With cubicle manufacture, we specialize in providing comfort to living areas.

"High quality service at an affordable price" has been our motto from the day we opened our doors.

Our enterprise, which operates entirely with local capital and products, generates both employment and significant economic contributions to our country.

A model structure in terms of the significance it places on technology, R&D, design, and human resources.

SANDER, which is a "sustainable" discipline concept, gains an environmental business strategy.

Because of its environmental business strategy, SANDER is a "sustainable" discipline concept. acquires.

SANDER, which continuously decreases its carbon emissions through a regulated follow-up, plans to meet the "zero waste" aim by 2030.

The tagline "Adds value to your living spaces" inspires the design of practical, colorful, and dependable items.

SANDER provides comfort in over 20 nations.

MODEL STELLINE LUX
Product Code: 10108AO12

# Value Adding **Features**

Quality details and advantages;

• Our panels are 12 mm thick and water and humidity resistant.

• Our panels are antibacterial and feature easy-to-clean surfaces.

• Our cabins' panels and fasteners are certified.

• This product line makes use of first-rate album raw materials.

• Satin stainless steel is used to make connection, support, and complimentary pieces (SSS 304 quality).

• Steel materials have received an unique coating (SSS permalast) that improves corrosion resistance.

• Product line of the SANDER Stelline Delux series.

• Produced with cutting-edge technology and engineering expertise.

• It has been designed with the notion of adding value to living spaces in mind.

• Designs that were unique, innovative, and colorful were employed.

• Water, humidity, heat, and cold have no effect on it.

• It has a strong abrasion resistance.

• It is entirely made in Turkiye.

• It creates direct jobs and contributes to the Turkish economy.

Comfort is in the details.

TOP VIEW

SS10X012
TOP PANEL CONNECTION
• It is the original top panel connection accessory.
• It serves to keep the panels from wobbling when connected.
• The product form is T-shaped and has a diameter of 27 mm.
• Made of stainless steel of the 304 grade.
• Dowels suited for the type of wall are chosen while applying the product.
• Top connector with a 4.2x11 mm coarse thread made of 304
• Using high-quality stainless steel screws, it is secured.

SS08X012
HANGER
• It's made of 304 quality stainless steel.
• It is corrosion-free within the guarantee term.
• Water and humidity resistant.
• Plastic material is added at the product's end to serve as a stopper and prevent impacts.
• It is capable of transporting up to 10 kilograms.

SS11X012
WALL CONNECTION
• This product is used to install the original top panel connecting pipe to the wall.
• Top panel fixed holder made of 304 quality stalline stainless steel.
• They're compatible with both 12 mm and 1 8 mm HPL pannels.

SS17X012
TOP PANEL CONNECTION BRACKET
• Top header connection.
• It serves to keep the panels from wobbling when connected.
• The product form is pipe and has a diameter of 27 mm.
• Made of stainless steel of the 304 grade.
• When using the product, it is connected to the wall connection equipment and affixed to the wall.
• Top connector with a 4.2x11 mm coarse thread made of 304.
• Using high-quality stainless steel screws, it is secured.

SS13X012
90° ADAPTER
• It has a 'L' form and a 32 mm diameter.
• It serves a purpose in connecting the wall and partition panels.
• This item is constructed of 304 stainless steel.
• It is linked to the top panel pipe in corner turm cabinets with two M4*8 grub screws.

SS03X012
HINGE-SPRING
• The flat (Tongue-Groove) style door systems category includes this product.
• Metal pieces'll be composed of stainless steel.
• The hinge covers won't have any visible wings.
• They're compatible with both 12 mm and 18 mm HPL pannels.
• 90 mm in height and 70 mm in width.

PS0112X
U CONNECTION PROFILE
• The edges of the panel are not visible when the cabin system spins thanks to the application of t his connection piece.
• The U profile's exterior dimensions will be 22 x 15 mm, with a wall thickness of 1.5 mm.
• It will be used to link U profile-Wall and U profile-Divider Panels.
• Its dimensions are 4.2 x 11 mm. Thick threaded, stainless steel screws are used to fasten it.

SS01X012
LEG
• The size range is 100-150 mm with a diameter of 27mm.
• It has 52 mm diameter leg cover.
• This accessory's adjustable height ranges from 100mm to 150mm.
• The material will be protected by a 12.5 mm duct in a compact laminate panel.
• The leg foundation will be secured to the ground using PA6 shoes that are attached with stainless screws at at least three distinct spots.

SS05X012
LOCK
• They're compatible with both 12 mm and 18 mm HPL pannels.
• It has a latch and dial mechanism.
• It has a 304 quality stainless steel profile latch, twisted body, and arm.
• It uses the latch turning mechanism to lock.
• It has a latch and dial, and with the colored mechanism (red-green) on it, it displays from the outside whether the door is busy or not
• It is interfered from the outside in case of an emergency.

SS15X012
GRIP
• This product series is produced in lengths of 120 cm.
• It's attached to the front of the cabinets.
• It is installed as a single face on the front of the doors.
• On the rear, a standard handle is employed.
• SANDER guarantees that this product may be made in a variety of sizes upon request.
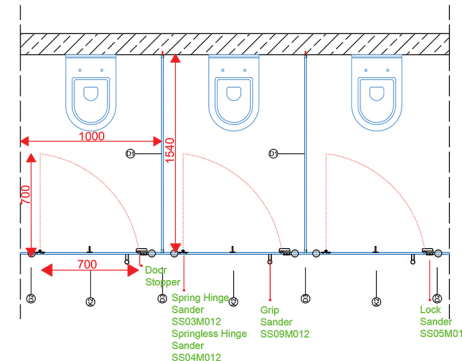

PS0412X
CORNER CONNECTION PROFILE
• The edges of the panel are not visible when the cabin system spins thanks to the application of this connection piece.
• Size: 30 × 30 mm.
• Compact laminate panels will grab the corner profile on all sides.
• This product attached using 304 grade stainless steel screws with a coarse thread measuring 4.2 x 11.
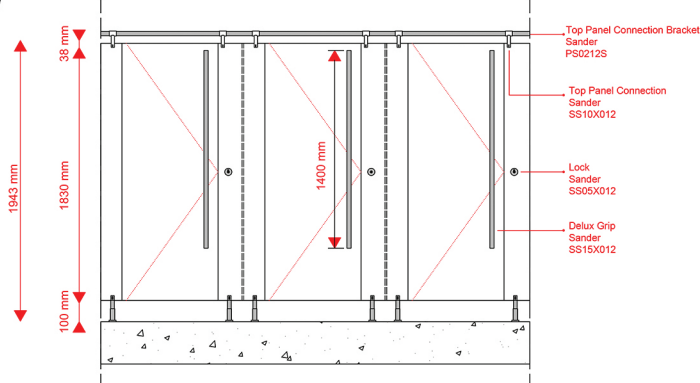

SS04X012
HINGE-SPRINGLESS
• The flat (Tongue-Groove) style door systems category includes this product.
• Metal pieces'll be composed of stainless steel.
• The hinge covers won't have any visible wings.
• They're compatible with both 12 mm and 18 mm HPL pannels.
• 90 mm in height and 70 mm in width.

Product **Care**

Why is maintenance necessary?

It is critical to maintain stainless surfaces in order to maximize product life and corrosion resistance.

What supplies are needed?

This is simply accomplished by dampening a clean cloth in warm water with a tiny bit of detergent or soap.

How to care?

To begin, use a wet cloth to remove coarse grit and grime from the product to be cared for.

Next, thoroughly rinse your cloth. Wiping effectively requires gently rubbing the substance or ingredients.

Attention!

Product maintenance should not be performed using carbon steel brushes or wool wire.

Product **Warranty**

Warranty

For two years, SANDER guarantees all of its products against corrosion and mechanical flaws.

(*) Our organization accepts no liability in the following situations:

Failure to follow assembly instructions,

In the case of wear and tear caused by maintenance mistakes, in the case of loss or damage caused by user errors, in the case of incorrect disassembly, removal, or replacement, and in the transportations used to carry the product from one location to another.

(**) The right to change

SANDER retains the right to make modifications to standard product features and dimensions without previous notification in order to adhere to the idea of always enhancing service quality.
